# FOR MORE THAN 25 YEARS

**As a family-owned business,**  
we view lived values and traditions  
as the driving forces behind  
our daily work.

**Our most valuable asset:**  
Handshake quality, trusted by our  
employees, partners, and customers. Our  
boats combine technical sophistication  
with luxurious design and represent  
sustainable values. For 25 years,  
innovation through technology has  
shaped our company's history.

**ELECTRIC YACHTING**  
SINCE 2000

# 8 MODELS

**The right solution for every vision**

# EVO 700

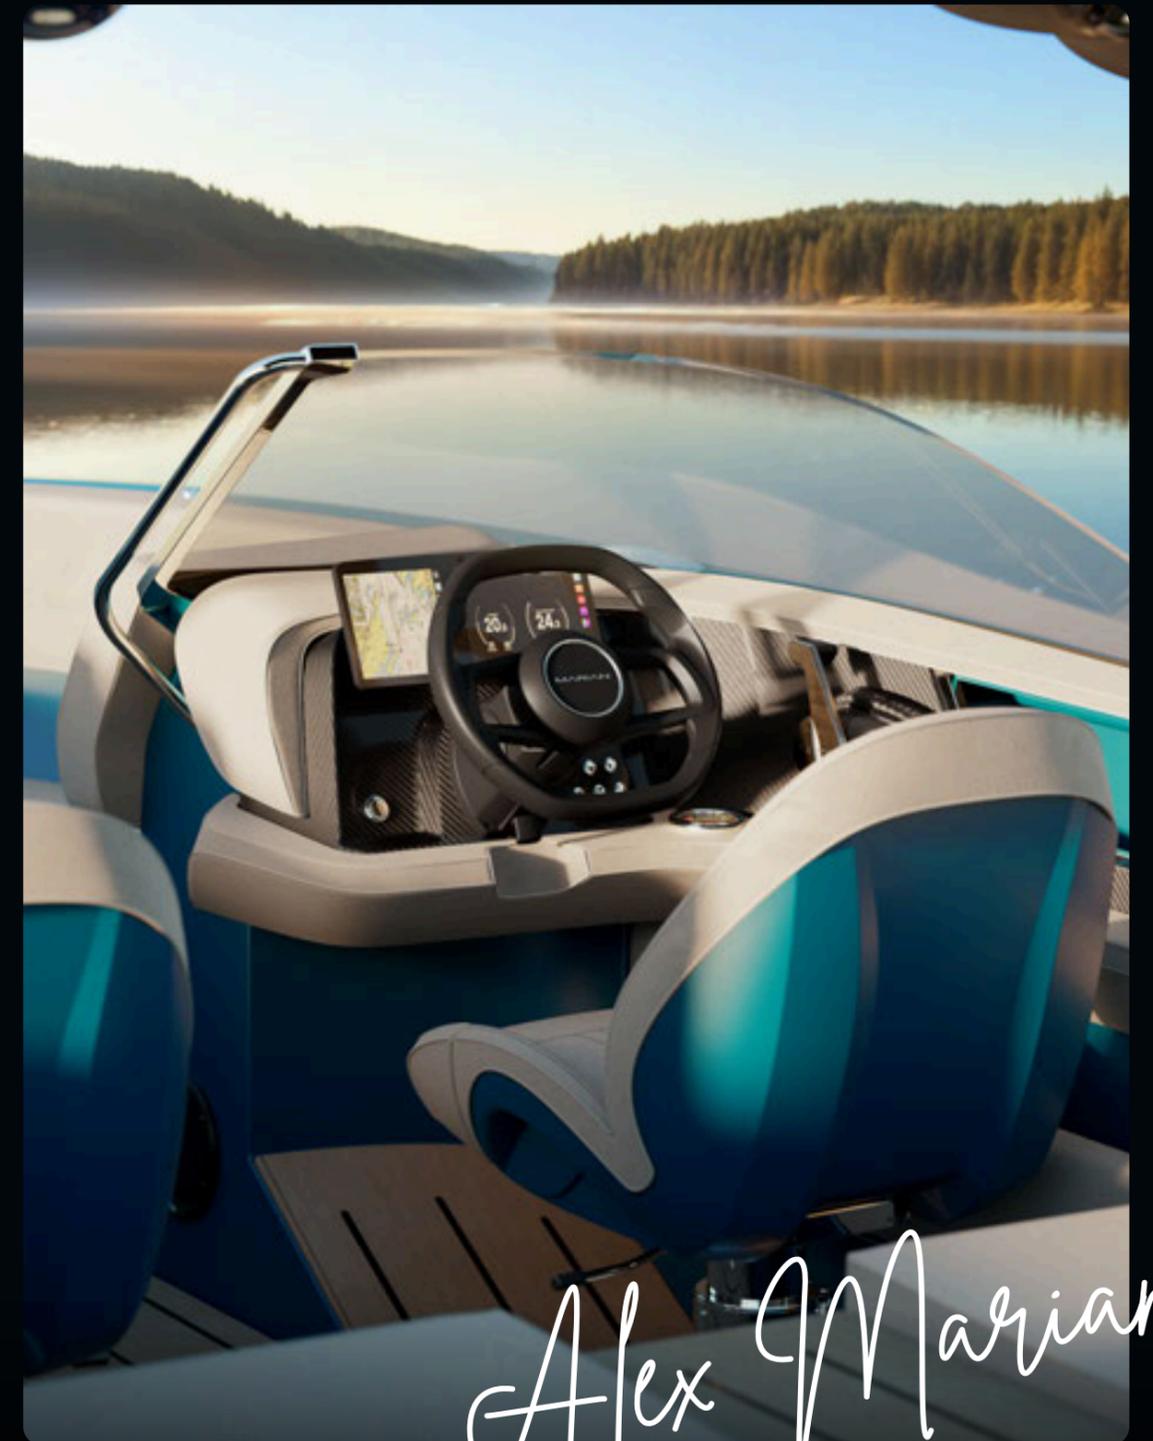

**Masterfully built for  
the perfect wave.**

**The EVO 700 is more than just a wakesurf boat** – it's the electric evolution. With uncompromising design, the finest workmanship, and state-of-the-art technology, the EVO 700 redefines the standard for luxurious wakesurfing.

# Smart control. Pure intuition.

**The digital cockpit** with its large touchscreen combines all functions in a clearly structured interface. Performance, surf control, lights, and music—everything at a glance, intuitively controllable, and always under control. Thanks to its innovative hull design and optimized electrical performance, the EVO 700 generates a perfect wave

# The Marian M800 Spyder in Dubai

**Our journey in Dubai** began with an impressive ride to the iconic Atlantis, The Palm. Silently, we glided along the skyline, through Dubai Marina, and out into the open sea. Along the way, we enjoyed the landscape and forged a partnership with our dealer in the UAE to tap into a new market.

# THE COMPANY

**Electric boats in perfection – Quality,  
craftsmanship & innovation**

# Headquarter in Austria

**Our Austrian headquarter** is the hub for sales and final assembly of our high-quality electric boats. Here, 15 dedicated employees – electricians, carpenters, and boat builders – combine their craftsmanship to ensure the highest quality standards.

**From this location,** we manage the delivery of your model and conduct strict quality controls to ensure that each boat meets our highest standards.

# Our History

**Boote Marian was founded in 2000** by Ion Marian. Initially specialized in boat repair and service, the company's focus quickly shifted: Through craftsmanship and meticulous planning, a new foundation was laid — the production of self-developed boats.

**In 2004, the company moved** from the rented workshop to its current location, where we have been manufacturing, storing, and showcasing luxury yachts ever since.

MARIAN  
ELECTRIC YACHTING

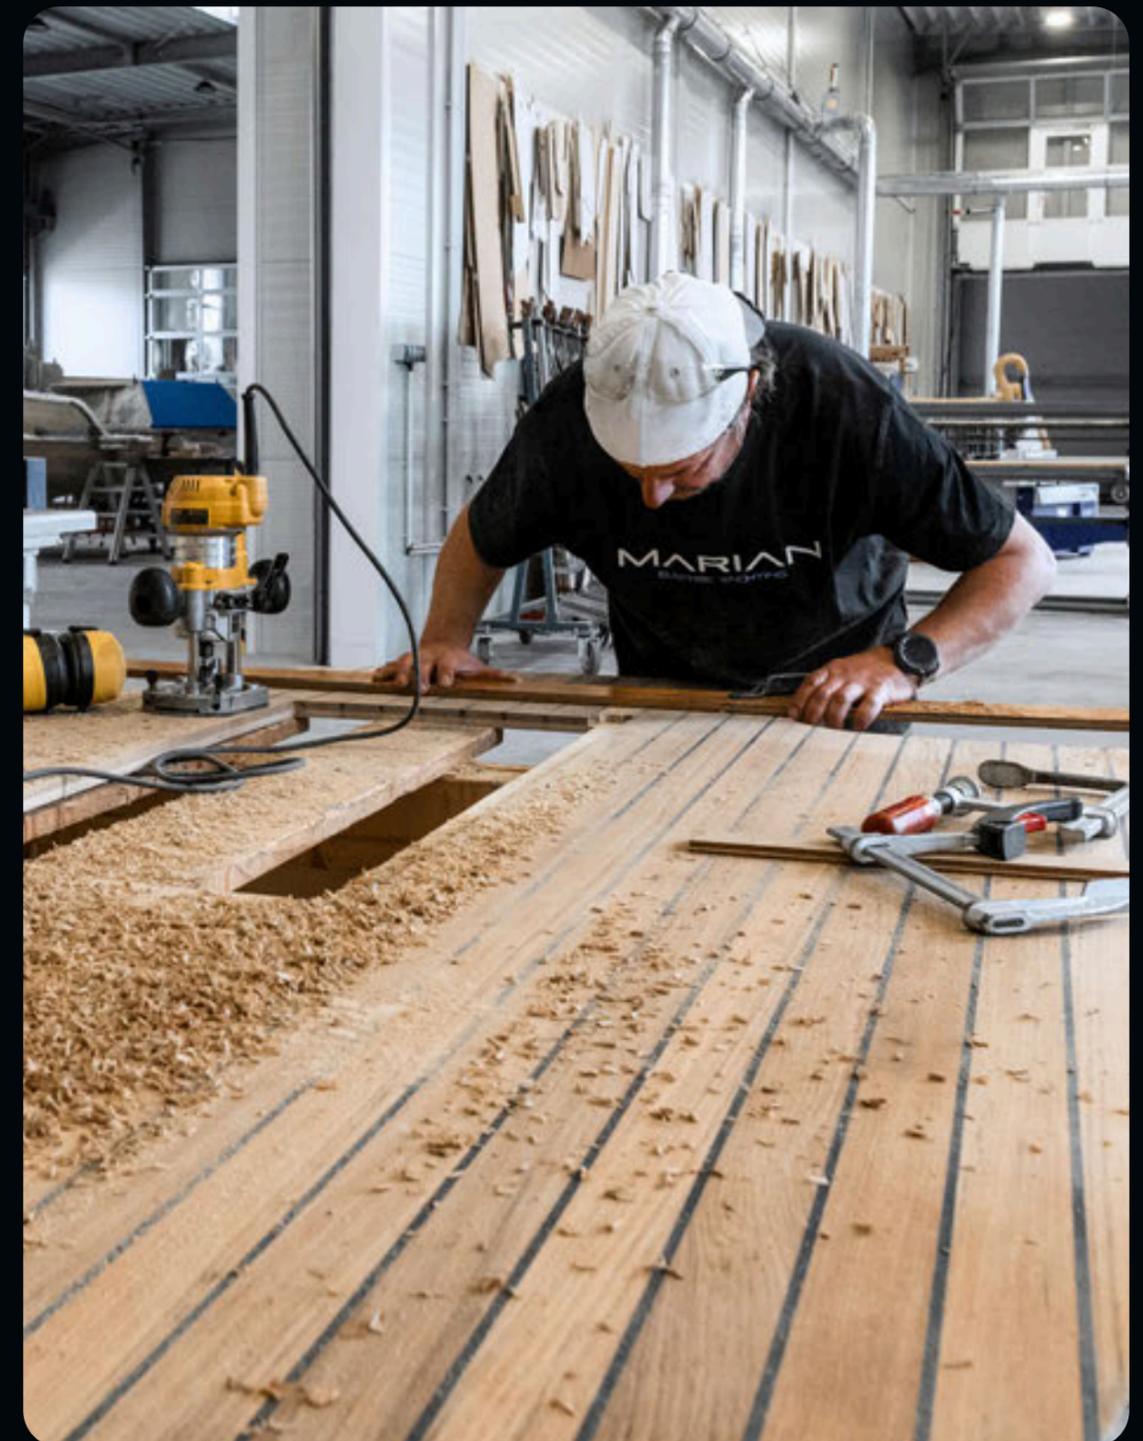

## Production in Romania

**Our new company building in Romania** is a modern center for the production of high-quality boats. On 3,500 square meters, more than 50 hulls are laminated annually, woodworking and metalworking are carried out, and upholsteries are produced. With 50 employees, we aim for the highest quality and innovation in boat manufacturing.

# Quality, craft & innovation

**All iron, wood, and sewing work** is carried out in our own production facility. This ensures the highest precision and quality in every step. Our experienced team relies on traditional craftsmanship combined with modern technology to create durable, custom-made boats.

# Measurable success

## Experienced pioneer

Over 25 years of experience in the development of innovative electric boats.

More than 1,000 boats sold worldwide in the premium segment.

Each boat is a unique piece – custom-made perfection down to the finest detail.

## WORLDWIDE DEALER NETWORK

12 exclusive partners in the key markets worldwide

Individual support and tailored solutions through local partners

12% projected growth rate in the European market

## ESTABLISHED FAMILY-OWNED

Second generation working with passion and dedication

Continuous organic growth under family leadership and responsibility

100% family ownership – 100% responsibility and passion for quality

MARIAN
